

Advanta® Lite Frame*

for Fiber-Classic®, Smooth-Star®, Profiles™,
Traditions and Pulse® Doors

THERMA TRU®
DOORS

A new frame of mind.

Achieve a seamless look with the Advanta® lite frame, an innovative, patented solution from Therma-Tru. Avoid the unsightly look of missing screw plugs and enhance the beauty of your home's entryway.

TRU-ADVANTAGES

■ Pre-Finishing Benefits

- The frame cover can be finished separately, eliminating the need to mask the glass when finishing the lite frame.
- The elimination of screw plugs makes the pre-finishing process even easier.
- Frame does not need to be deglazed or reglazed during pre-finishing, reducing the amount of time the glass is handled, lowering the chance for damage.
- Allows the door to be completely finished before installing the glass, eliminating unfinished areas that may become exposed over time.
- Save time and money with no-finish-required Advanta lite frame and simulated divided lite (SDL) bars color-matched to PrismaGuard® Alpine (white).

■ Aesthetic Benefits

- Frame cover can be finished separately to eliminate unsightly behind-frame paint or stain weep.

■ Inventory Benefits

- Advanta lite frames are interchangeable across IG units, making them easier to inventory and assemble.
- Stock the IG units (with attached base frames) separate from bulk frame covers, resulting in improved inventory efficiency and flexibility.

The Advanta lite frame is a patented design, U.S. Patent No. 10,655,382.

ADVANTA®
LITE FRAME

The next generation of lite frames.

Patented four-piece design includes two interchangeable frame covers and a two-piece base frame.

- A Frame Covers** (Interior / Exterior) Removable, interchangeable aesthetic frame that clips into place.
- B Base Frame** Structural frame component that secures the frame to the glass in the door cutout.
- C Insulated Glass Unit (IG)** Available in various decorative, privacy and clear glass options.
- D Frame Clips** Zinc-plated steel clips that secure the frame cover to the base frame.

AVAILABLE GLASS SHAPES

COMPATIBLE SIDELITE SIZES

- Compatible with 12" and 14" standard sidelites.
- Compatible with 14" vented sidelites.
